(1) The construction years are given as an indication and may vary depending on the model and the production sites. (2) The SPH-EVO multimedia system (208/2008) covers a large number of vehicles. Manufacturers are constantly changing vehicles (software / mechanics), so it is possible that some vehicles are not compatible with the Pioneer system.

(3) Smart EQ Display functions are not available on SPH-EVO62DAB-SMAB / -SMAW. (4) In case of display audio: EQ features will only be visible on display between cluster.
